Volume XXXVII

The Thirty-seventh Edition

of the

PEGÉ

Published at

West Nottingham Academy

in Colora, Maryland

In the years of its history, the Academy has seen many instructors. In the thirty-seven years of the Pegé's existence, as many individuals have been singled out for recognition as the one to whom the graduating class has dedicated the yearbook.

This signal honor falls this year upon an instructor finishing his fifth year. He is noted for his high demands upon his students, for penetrating questions, and for yard sticks snapped upon the desks of drowsy students. He is one-half of the Contemporary Civilization course, the European half. He has served more than three years as master of the senior boys' dormitory. In this capacity, he serves as advisor, disciplinarian, and, once a year, Santa Claus.

In all, over the years of his service here, he has become a true part of the Academy. Therefore, with pleasure the Senior Class dedicates this 1967 Pegé to

Headmaster's Message To The Class Of 1967

I take this responsibility of writing a message to each graduating class very seriously. Each year I try to express to each class some of the thoughts that grip my heart, my mind, my very being. I hope that these words I write each year provide some current thinking that is applicable to *your* present situation.

This year I am much concerned with the social forces which constitute the framework of life in which you and I as individuals must live. These forces are powerful and determine the very direction that our common life takes. Yet we must not view them as things beyond our control, for, indeed, we shape them as a result of what we as individuals stand for in terms of goals, values, and moral principles. We simply must perceive that our individual positions merge to form collective strength as we live in our schools, in our neighborhoods, in our cities, in our states, in our nation, and in the world.

In noting that nineteen of the twenty-one world's civilizations died not from an outside enemy but from internal decay, someone has pointed out that the average age of these world's great civilizations was two hundred years and that the United States will be two hundred years old very shortly. He also asserted that these nations progressed through this sequence:

"From Bondage to Spiritual Faith
From Spiritual Faith to Great Courage,
From Great Courage to Liberty,
From Liberty to Abundance,
From Abundance to Selfishness,
From Selfishness to Complacency,
From Complacency to Apathy,
From Apathy to Dependence,
From Dependence back again to Bondage."

Although this cycle is apparent from the past, it need not be repeated if you and I have the stuff by which it can be broken. And this "stuff" is grounded in what we believe about life as it must be lived from day to day by each of us. In order to develop the full life of social happiness and achievement, you and I must persist in finding personal meaning to the historical, dynamic concepts of God, dignity of labor, inner peace, world peace, brotherhood, marriage, family, distribution of wealth, equal opportunity, and a responsible morality.

We are undergoing the most rapid period of technical and scientific change in history. Dr. Harr Gideonse, president of Brooklyn College, delivered an address to a convention which I attended last year entitled "The Values of Youth and Accelerated Social Dislocation". A powerful talk it was, and in it he pointed out that "There is only one thing that is certainly predictable about their circumstances of their [young people] lives: The pace of change which is already difficult to digest today will sharpen and intensify. The competitive and conflicting pressures which beat about our heads will not diminish but they will grow in number and intensity." Ruling beliefs and values are being seriously challenged today and new ones *must* replace them in order to provide stable direction to the new society that is being born out of the technical and scientific progress we are experiencing.

I urge you to continue your search for knowledge about the totality of life so that *you* can make your contribution, not to the breakdown of a great civilization as illustrated by the cycle previously mentioned, but to the further development of the American dream once placed firmly on the stage of history by our founding fathers, many of whom studied here at this old place of learning. They saw so clearly that they would not be victims of social forces but rather makers of these forces. We need such makers again—depart and do your job well!

November 21, 1966

The Pegé, wishing to represent the feeling of the entire Academy, places this page in memory of Andy Dyer. Because he was an active member of this Academy, his death has been especially difficult for us to accept. After the immediate shock, life has gone on for the rest of us. But an emptiness remained throughout this year. The Class of 1967 will always be incomplete.

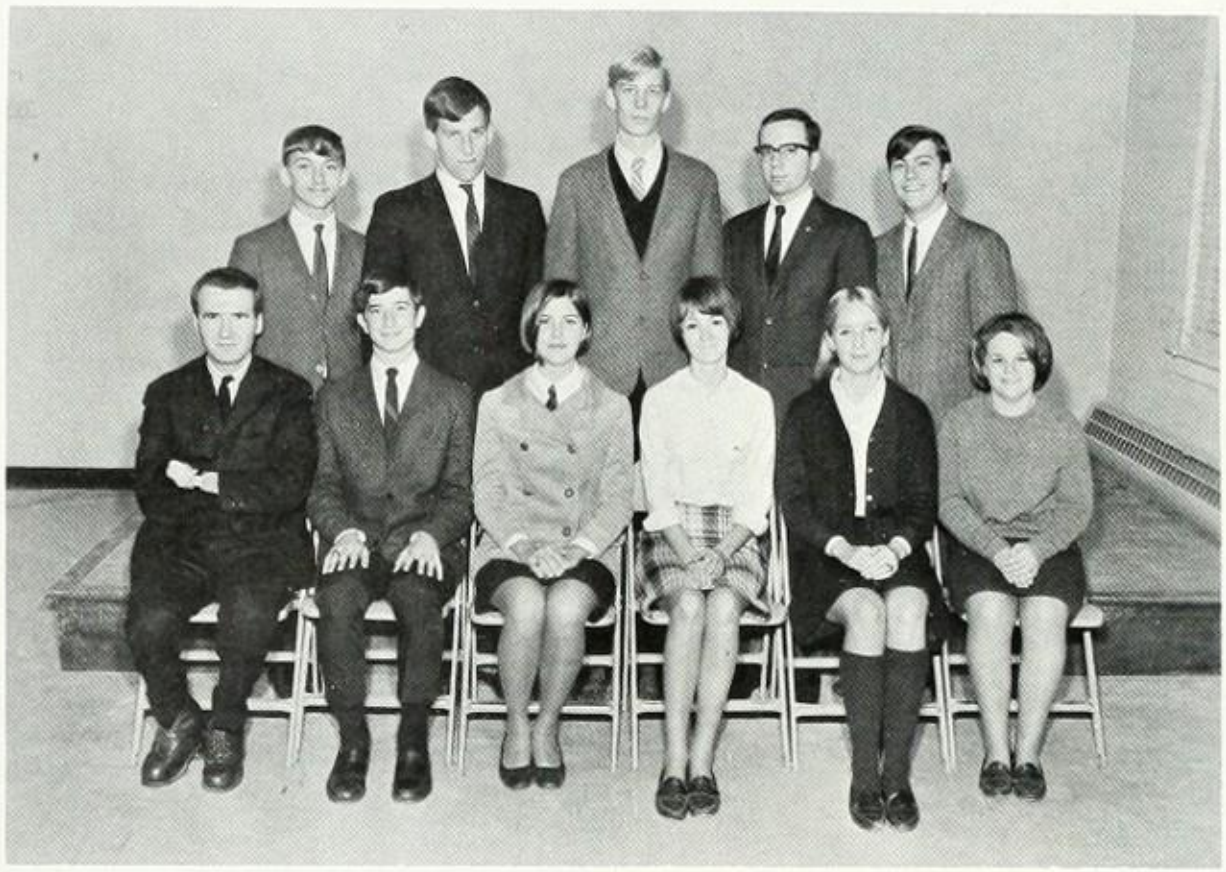
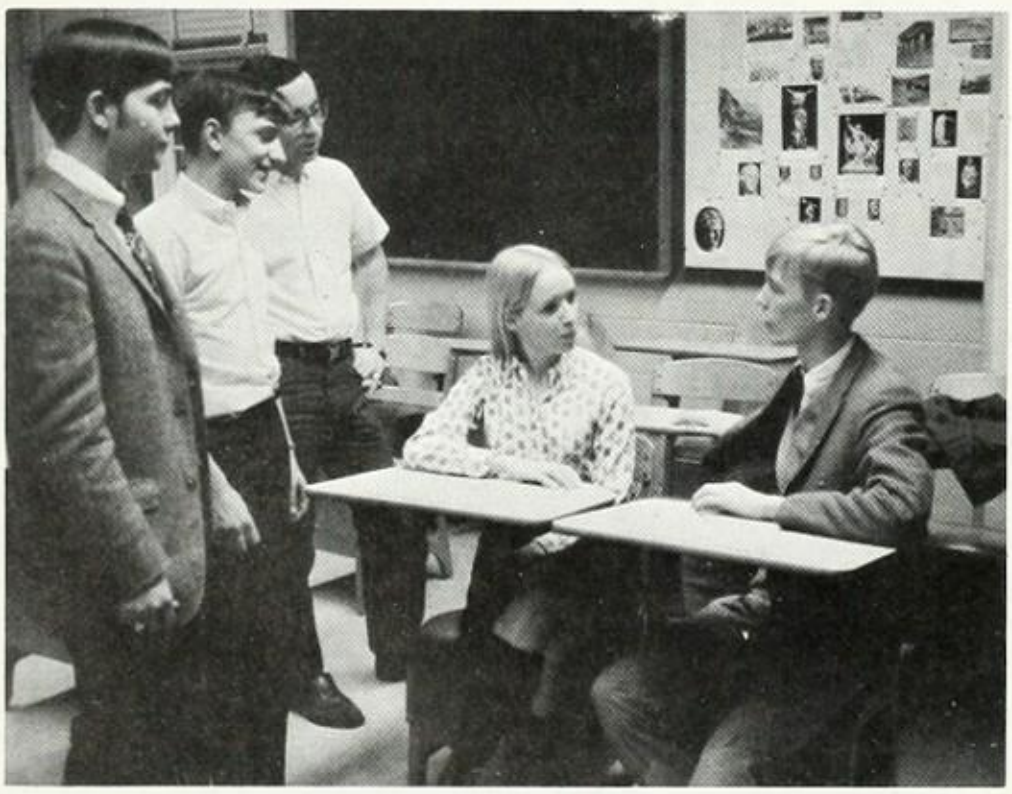
Student Council



STANDING: T. Allen, T. Campbell, Weaver, King, Washington.
SEATED: Mr. Ray (Advisor); Castle, K. Bratton, Sanborn, K. Hill, Castleman.

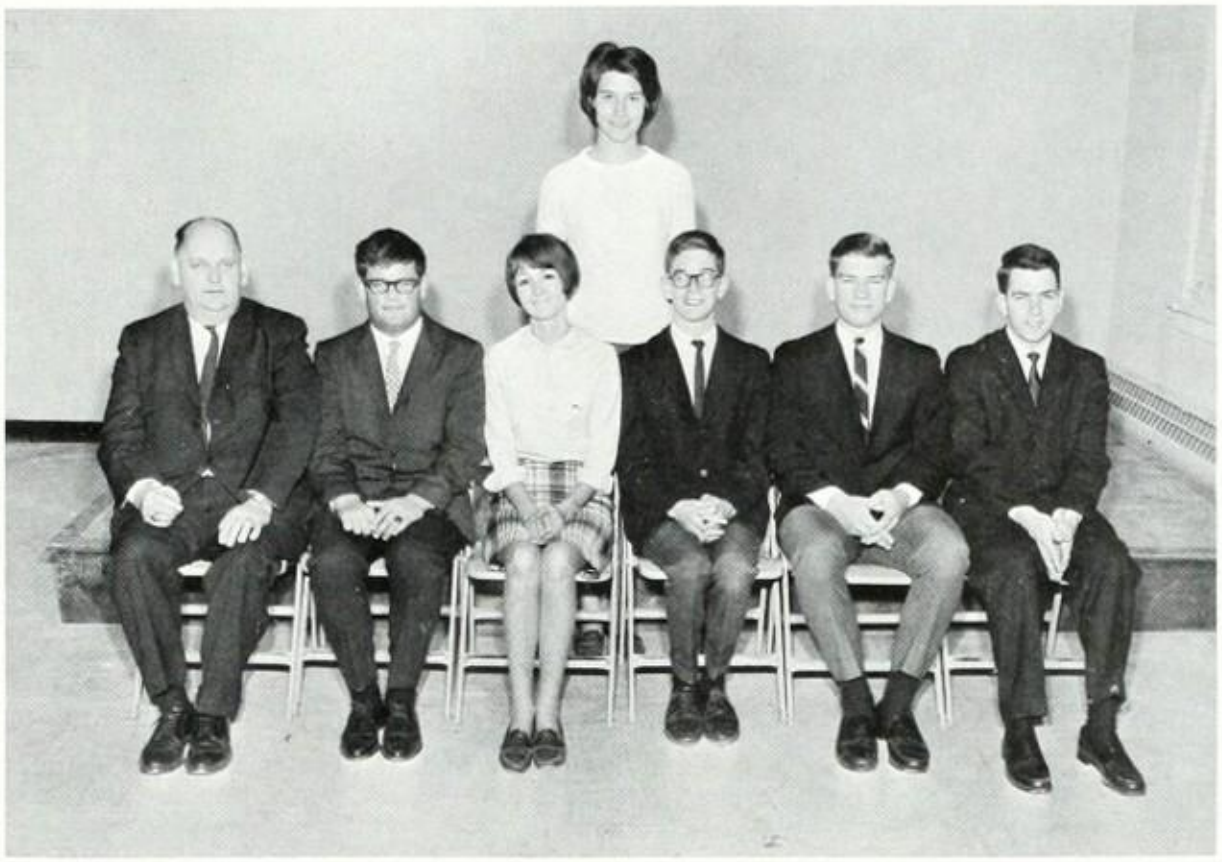
The Student Council plays an important role in Nottingham life. Its purpose: to provide a closer relationship between the students and the faculty, and to give the students a better understanding of the rules set by the Academy. Under the guidance of Mr. Ray, the Student Council sponsors "Wear What You Want Days" and other social activities for the students. This year's goal for the Council is to study its constitution for possible revision.



"How about 'Wear What You Want' every day?"

"I'd call the meeting to order if the bell would work."

Chapel Club



STANDING: Wentzel.
SEATED: Mr. Farnlof (Advisor), Hirsh, Sanborn, Hughes, Lampe, Mr. Baxter (Co-Advisor).

Each day before classes begin the members of the Academy family are led in morning prayer by some of their fellow students. The Chapel Committee, guided by Mr. Farnlof with the assistance of Mr. Baxter, plays an important part in many of the Sunday evening services. Again this year four committee members attended the Buck Hill Falls religious conference for independent schools.

"Please, stand for morning prayer."

"Classes will resume."

Editor's Message

Throughout the history of West Nottingham Academy, many students have come and gone. Most students, in the past, have dedicated themselves to their work. yet some have not. West Nottingham gives each and every student that chance to better himself here and now. In time, many more students will come and go. Each will have that same opportunity to do his best. This opportunity is sometimes neglected. Other opportunities will face each student throughout his life, but it is now that the student must take the first step that will lead to a future worthy of himself as a person. That first step may be hard and discouraging, but, once it is taken, the results will begin to appear.

Your opportunity is now, and it must be taken. The results will be slow, but once they come, they will be in the form of a solid basis for a rewarding future. It is up to each student to find himself and decide his future now with that first step.

This yearbook stands for each student to look upon as a record of his growth at the Academy. Within these pages, the formation and growth of each student is expressed in both serious and light moments. Hopefully, it will act as a guide to quell the discouragement that surrounds much of life and will serve as a memory of a first positive step well taken.

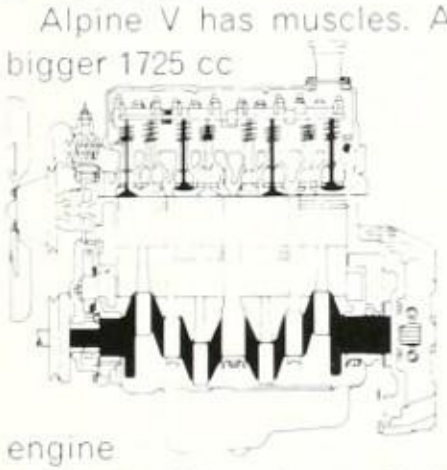
How to buy a high performance sports car—complete—for less than $2600.†

Start with a dealer who sells the new Sunbeam Alpine V. You'll find it as advertised above—and carrying Chrysler's 5-year/50,000-mile warranty* besides.

It took British Sunbeam and Chrysler together to bring it about, but there it is: a tough Class E contender for a mere $2567.†

Alpine V has muscles. A bigger 1725 cc



engine puts out 100 hp at a comfortable 5500 rpm. With twin carbs, a regeared, fully synchromeshed 4-on-the-floor plus quick clutch, 0 to 60 comes in 12.8 seconds.

5 years/50,000 miles

Alpine V is also built to satisfy Chrysler's famous engine and drive train warranty. The crankshaft now has 5 main bearings; a new oil cooler maintains lube efficiency at high rpm; even the exhaust ports are staggered to discourage hot spots in the block.

No austerity here

With so much car built into the basics, the amazing thing is what *else* Alpine gives you for your $2600 or so.

Take brakes. 9.85 in. Girling discs up front, 9 in. drums behind. Generous. They're also self-adjusting at all 4 corners—and power assisted besides!

Take steering. A fast, crisp 3.3 turns lock-to-lock. The wheel also telescopes in and out and locks at your fastest, most comfortable reach.

Take bucket seats. Alpine's are richly padded, neatly turned out in pleated vinyl. Both adjust forward, back, up and down, and the backs recline.

Take room. Alpine has more than most sports cars at any price. Even around the feet (pedals are adjustable) and in the trunk—two places you often get pinched.

Etc., etc., etc.

Console with locked storage well is standard. So is a heater with 2-speed blower. The dash is a gem of instrumentation. The convertible top is self-storing and easy to work. And so on.

So for the impossible on a $2600-type budget, you now have a place to go: your Sunbeam dealer's, for Alpine V.

Only thing that meets it for value is a Sunbeam Tiger V-8. But that's $1100 more.†

*HERE'S HOW THE SUNBEAM ALPINE 5-YEAR OR 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU: Chrysler Motors Corporation warrants all of the following vital parts of Sunbeam Alpine cars imported by Chrysler for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material or workmanship will be replaced or repaired at an Authorized Sunbeam Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, water pump, intake manifold, transmission case and internal parts (excluding manual clutch), drive shaft, universal joints, rear axle and differential, and rear wheel bearings. HERE'S ALL YOU MUST DO: Give your car this normal care—change engine oil every 3 months, or 4,000 miles, whichever comes first; replace engine oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; clean crankcase ventilator valve, and change transmission and axle lubricant every 6 months or 8,000 miles, whichever comes first; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. This warranty shall not apply to cars subjected to racing or other sustained high speed use, acceleration trials or wide-open-throttle operation, etc.

†Mfr's suggested retail price, East Coast P.O.E., state and local taxes, destination charges and options extra, including outside mirror. West Coast slightly higher. FOR MONEY-SAVING EUROPEAN DELIVERY, ask your dealer about Sunbeam's Overseas Delivery Plan.
